

ECOKRAFT BIG BAG SYSTEM VA

INNOVATIVE, HIGH-QUALITY AND SPACE-SAVING

Delivery without mosquito net

AREAS OF APPLICATION

The innovative Big Bag solution for your company. Thanks to high-quality components and a stacking function of the racks, this enables a space-saving alternative to previous applications.

ADVANTAGES

- ✓ Maximum flexibility in handling
- ✓ Emptying through integrated slider
- ✓ Stackable/space-saving
- ✓ Reduced volume when not in use

ECOKRAFT BIG BAG SYSTEM VA

The ECOKRAFT Big Bag system is a unique solution for safe internal and external transport, efficient stacked storage and (metered) emptying of solids from big bags. The VA system consists of a robust shell-shaped plastic base frame with a side-operated discharge gate. 4 steel tubes with special plastic heads are used to fix and stack the Big Bag systems.

The ECOKRAFT VA system can be disassembled into individual parts, thus reducing its volume when not in use.

The big bags are stable and can be safely transported internally and externally. With a weight of 1.500 kg, the big bags can be stacked up to four high.

The basic frame of the ECOKRAFT VA has an integrated slide for optimal metered discharge.

SPECIFICATIONS

TYPE	VA1	VA1.5	VA2
Volume	1 m ³	1,5 m ³	2 m ³
Total weight	50 kg	56 kg	56 kg
Load capacity	max. 1,500 kg	max. 1,500 kg	max. 1,500 kg
Stackable (rows)	4	4	4
Latching head	+	+	+
Length/Width Big Bag	950/950 mm	950/950 mm	950/950 mm
Temperature in use	-10°C bis +40°C	-10°C bis +40°C	-10°C bis +40°C
Width A	1,200 mm	1,200 mm	1,200 mm
Height base frame B	310 mm	310 mm	310 mm
Total height C	1,400 mm	1,900 mm	2,400 mm
